MBBS · FRACS (Orthopaedic Surgery) · AHPRA Registered Specialist

CLINICAL FOCUS

- Total Hip Replacement
- Total Knee Replacement

ABOUT DR LIEW

Dr Liew's practice is built around a single, unwavering focus: total hip and total knee replacement. This deliberate specialisation — seeing only hip and knee patients — means every consultation, every technique, and every outcome improvement is directed at a single goal. Patients benefit from a surgeon who has performed these procedures thousands of times, with continuous refinement of approach.

Dr Liew is recognised as an international trainer in advanced arthroplasty technique, teaching surgeons across the Asia-Pacific region in minimally invasive approaches and enhanced recovery protocols. He brings the same rigour and precision to every patient he operates on in Adelaide.

Dr Liew operates from the two newest hospitals in Adelaide — Eastwood Private and Calvary Adelaide Hospitals.

TRAINING & QUALIFICATIONS

- Fellowship — Royal Australasian College of Surgeons (FRACS)
- International Experience — Advanced Arthroplasty Techniques
- MBBS, University of Adelaide
